

AMC (Annual Maintenance Contract)

PACE offers AMC service for its own products and Non PACE Products. Two types of AMC are offered,.

- Comprehensive maintenance
- Non-comprehensive maintenance

Strategic services including Installation, commissioning and maintenance of PACE in-house products is done through the expertise of an excellent professional team.

AMC for PACE products ensures that there is no interruption in product performance. We offer end-to-end services for telecom and solar infrastructure.

Key deliverables in AMC are:

- Periodical Preventive Maintenance visits
- Corrective Maintenance in case of Faults
- 24/7 Trouble Ticket logging
- On-site maintenance
- Off Site On Line Technical Support
- Emergency response for major issues
- Faulty Module or Parts replacement
- Help Desk

AMC (Annual Maintenance Contract) for non-PACE products: PACE offers AMC for products manufactured by other vendors used in the BTS sites. Following products of non- PACE (Other than Pace) are covered under non-comprehensive AMC from PACE:

- PIUs/PMUs
- Air-conditioners
- AMF panel
- Stabilizer
- Power plant
- SMPS
