

Fixed Energy Solution & Services

Energy costs being the dominant opex element in the management of a BTS site. PACE with their product knowledge & on field experience in Product Service and Comprehensive O&M Service, is capable of offering Fixed Energy solution to Towercos & Opcos.

In this PACE will provide tailor made solution for the site and will supply products, install, manage & maintain the site at agreed costs and SLAs.

The scope may cover designing a solution considering the environmental conditions of the site by offering solutions encompassing one or many of the possible alternatives as listed below:

- Battery Bank Capacity
- Solar
- DCDG
- DC Aircon
- DC Chillers
- FCU
- Aircon Soft Start
